

Andrés Filoso

Senior Full Stack Engineer

📍 Barcelona, Spain ✉ andresfilosok@gmail.com 🌐 andresfiloso.com.ar 🌐 afiloso

Professional Summary

Senior Full Stack Engineer with 8+ years of experience building scalable APIs and distributed systems. Strong background in cloud-native architectures, performance optimization, and remote collaboration with U.S.-based stakeholders.

Education

B.S. Universidad Nacional de Lanús, Systems Engineering Buenos Aires, Argentina
(In Progress) 2014 – present

Experience

Globant, Sr Backend Engineer Remote
Nov 2020 – Mar 2025

- Built scalable APIs serving thousands of daily users for large enterprise platforms in telecom and education.
- Improved system reliability and performance through k6 testing, performance analytics, and database optimization.
- Integrated into multiple client engineering teams, contributing to high-scale feature delivery and release timelines.
- Collaborated daily with U.S.-based stakeholders, maintaining strong communication and consistent positive feedback.

Activate (Cooperative Startup), Co-Founder & Lead Full Stack Engineer Remote
May 2020 – present

- Led backend and API development for a cooperative digital marketplace platform.
- Developed the main e-commerce web app (activate.ar) supporting ~500 monthly active users.
- Built internal web applications for inventory, finance, orders, fulfillment, logistics, CRM, product management and reporting.

Telecom Argentina, Sr NOC Analyst Buenos Aires, Argentina
Apr 2018 – Apr 2020

- Designed and developed internal tools, scripts, and REST APIs to automate operational workflows and modernize legacy systems still in production.
- Worked extensively with networking and service infrastructure, including Cisco and Juniper equipment, VLANs, VRF, MPLS, CMTS platforms, DHCP, DNS, and SDH/DWDM links.

Skills

Backend & APIs: TypeScript, JavaScript, Node.js, NestJS, Fastify, REST API Design, Strapi CMS

Databases & Caching: PostgreSQL, MongoDB, Redis

Frontend: React, Next.js, Tailwind CSS, shadcn/ui, design systems

Cloud & DevOps: AWS (ECS, ECR, S3), Docker, Terraform, GitHub Actions, CI/CD

Architecture & Performance: Distributed systems, k6 performance testing, DDD, event-driven architectures

AI-assisted, spec-driven development: Write production code, tests, and documentation using Claude Code, GitHub Copilot, and OpenAI Codex, following a specs-first workflow

Languages

Spanish: Native

English: Fluent (daily collaboration with U.S. stakeholders)
